UNIVERSITY of DENVER

College of Law
Transportation Law Program

To Prospective Law Students:

Transportation is an enormously important industry, an essential part of the nation's infrastructure of travel, communications and commerce. Transportation is a vast industry, accounting for 16% of the Gross National Product, with networks of airlines, railroads, trucking companies, busses, pipelines, barge lines and ocean vessels linking the far corners of the nation and the world.

The evolution of public policy in transportation, moving from regulation to deregulation, has made the practice of transportation law a dynamic, challenging arena, integrating principles of law and economics. The transformation of the regulatory landscape creates new opportunities for lawyers as transportation firms transform themselves into lean and aggressive market driven companies.

Few industries offer a young lawyer such a dynamic landscape of shifting law and policy, one filled with challenge and opportunity. The pages of the *Transportation Law Journal* reflects these dynamics.

The University of Denver's Transportation Law Program is the premiere such program in the United States. If transportation law is what you want to do, the University of Denver is the place to do it. If you are a prospective law student, write me, and ask for our catalog.

Sincerely,

A handwritten signature in black ink, appearing to read "Paul Stephen Dempsey".
