STATUTORY AUTHORITY AND RESPONSIBILITIES

Commission Charge

In 1978, Senate Bill 46 (Parts 8 and 9, Article 30, Title 31, C.R.S.) created a statutory Police Officers' and Firefighters' Pension Reform Commission to study and develop legislation relating to the funding of police and fire pensions and the benefit designs of such plans. In 1996, Senate Bill 96-11 relocated these provisions to Articles 30.5 and 31 of Title 31, C.R.S.

Commission Activities and Recommendations

The commission held three meetings during the 2001 Interim. At these meetings the commission received an historical overview of state involvement in fire and police pension plans, a review of the 2001 Fire and Police Pension Association (FPPA) annual financial report, and detail about 2000 FPPA investment performance. The pension fund currently controls in excess of \$2.3 billion in assets. The commission considered legislation requested by the Board of Directors of the FPPA.

As a result of commission discussion and deliberation, the commission recommends three bills for consideration in the 2002 legislative session.

Bill A — Concerning State Contributions to Volunteer Firefighter Pension Plans

Bill A simplifies the method of calculating state matching contributions to local volunteer firefighter plans without changing the actual state contributions to those plans. The bill increases the minimum state contribution to \$1000 (from \$500) for any municipality or district that contributes the proceeds of a levy of one-half mill on the current valuation for assessment of the municipality or district.

Bill B — Concerning Authorization for Members of the Statewide Defined Benefit Plan to Acquire Service Credit for Prior Employment Not Covered by the Plan

Bill B allows FPPA members to purchase service credit for any prior public service, for prior private sector service of up to five years (after five years of service credit are earned), and would ease the process for granting service credit for funds rolled over from other eligible retirement plans. Service credit would be purchased for the Statewide Defined

Benefit Plan which is administered by the Fire and Police Pension Association and is funded entirely through employer and member contributions. By purchasing service credit an FPPA member increases the amount of service that the FPPA will use to determine eligibility for retirement and calculate retirement benefits.

Bill C — Concerning Death and Disability Benefits for Members of the Statewide Death and Disability Plan for Police Officers and Firefighters

The FPPA administers the Statewide Death and Disability Plan which covers nearly all paid police officers and firefighters in the state. The cost of the plan is covered through employer and/or member contributions. Bill C:

- creates a permanent occupational disability benefit and a temporary occupational disability benefit for members of the Statewide Death and Disability Plan;
- states that a member who becomes permanently occupationally disabled shall be retired from active service while such disability continues and specifies that the annual disability benefit for a permanent occupational disability shall be 50 percent of the annual base salary paid to the member immediately preceding retirement for disability;
- states that a member who becomes temporarily occupationally disabled shall be retired from active service for as long as the temporary occupational disability continues for a period of up to five years from the date of the original disablement and specifies that the annual disability benefit for a member who is temporarily disabled shall be 40 percent of the annual base salary paid to the member immediately preceding retirement for disability;
- states that a member who receives a temporary occupational disability benefit shall be subject to reexamination at the discretion of the Board of Directors of the FPPA;
- allows a member receiving a temporary occupational disability benefit to apply for an upgrade to a permanent occupational disability or total disability within a specified time;
- requires that all disability benefits be redetermined each year;
- reduces disability benefits by the actuarial equivalent of the benefits the member is eligible to receive from the separate retirement account or local pension plan if a member receives total or permanent occupational disability benefits and is eligible to receive payments from the member's separate retirement account or local pension plan;
- states that when a member's temporary occupational disability ceases to exist and the member is restored to active service, a transfer will be made from the Statewide Death and Disability Plan to the member's normal retirement plan in the amount of 16 percent of the monthly base salary that

the member was paid at the time of disability retirement, multiplied by the number of months the member received the temporary occupational disability benefit;

- states that if a member, while receiving a temporary occupational disability benefit, satisfies the age and service requirements for a normal retirement, a transfer will be made from the Statewide Death and Disability Plan to the member's defined benefit plan in the amount of 16 percent of the monthly base salary that the member was paid at the time of disability retirement, multiplied by the number of months the member received the temporary occupational disability benefit. States that such member shall then be granted a normal retirement and the disability benefit shall terminate;
- allows a member's family to receive the same survivor benefits that the family would receive had the member died while in active service if the member dies while receiving a temporary occupational disability benefit;
- increases the survivor benefit for survivors of members of the Statewide Death and Disability Plan for police officers and firefighters if the member dies while in active service in the line of duty; and
- modifies the division of the survivor benefit in the event that a surviving spouse and one or more dependent children residing in a separate household from the surviving spouse must share the benefit.

When the board in any municipality or district increases benefits above the amounts stated in paragraph (b) or (c) of this subsection (2), the board shall submit an actuarial study to the fire and police pension association that certifies that portion of the municipality's or district's mill levy, appropriation, or contribution to its fund that, pursuant to the provisions of this section, is to be used as the basis for calculating the state's matching contribution. A BILL FOR AN ACT

**CONCERNING DEATH AND DISABILITY BENEFITS FOR MEMBERS OF THE
STATEWIDE DEATH AND DISABILITY PLAN FOR POLICE OFFICERS
AND FIREFIGHTERS.**

Bill Summary

(Note: This summary applies to this bill as introduced and does not necessarily reflect any amendments that may be subsequently adopted.)

Police Officers' and Firefighters' Pension Reform Commission.

Creates a permanent occupational disability benefit and a temporary occupational disability benefit for members of the statewide death and disability plan for police officers and firefighters.

States that a member who becomes permanently occupationally disabled shall be retired from active service while such disability continues. Specifies that the annual disability benefit for a permanent occupational disability shall be 50% of the annual base salary paid to the member immediately preceding retirement for disability.

States that a member who becomes temporarily occupationally disabled shall be retired from active service for as long as the temporary occupational disability continues for a period of up to 5 years from the date of the original disablement. Specifies that the annual disability benefit for a member who is temporarily disabled shall be 40% of the annual base salary paid to the member immediately preceding retirement for disability.

States that a member who receives a temporary occupational disability benefit shall be subject to reexamination at the discretion of the board of directors of the fire and police pension association. States that the board may require treatment, counseling, or therapy necessary to rehabilitate the member. Specifies that it is the member's responsibility to show compliance with such requirements. Authorizes the board to terminate the temporary occupational disability benefit if the member fails to make rehabilitation efforts or if the member cannot provide evidence of a continuing disability.

Allows a member receiving a temporary occupational disability benefit to apply for an upgrade to a permanent occupational disability or total disability within a specified time.

For a member whose temporary occupational disability benefit ceases and who is not restored to active service or for a member who elects to terminate his or her temporary occupational disability benefit, entitles such member to any vested benefit earned prior to becoming disabled or a refund of the member's contributions if no benefit has vested.

Authorizes the board of directors of the fire and police pension association to consider any relevant evidence in the determination of an occupational, total, or on-duty disability.

Requires that all disability benefits be redetermined each year. Specifies that the member shall have received the disability benefit for at least 12 calendar months prior to the effective date of redetermination in order to be eligible for redetermination. Establishes that the amount of a member's permanent or temporary occupational disability benefit shall be increased by a percentage to be determined by the board of directors of the fire and police pension association, but such increase shall not be greater than 3% each year. Requires that the amount of a member's total disability benefit shall be increased by 3% each year.

If a members receives total or permanent occupational disability benefits and is eligible to receive payments from such member's separate retirement account or local pension plan, states that the disability benefit shall be reduced by the actuarial equivalent of the benefits such member is eligible to receive from the separate retirement account or local pension plan.

Allows any member who is awarded a total or permanent occupational disability benefit to receive the applicable normal disability pension or to make an election for a reduced pension to allow for survivor benefits in the event that the member dies while receiving such benefit.

Includes adult dependant and incapacitated children in the family payment option for survivor benefits for members receiving total and permanent occupational disability benefits.

Requires that an application for any disability benefit shall be filed by the member no later than 180 days after such member's last day on the payroll.

Allows a member in the disability benefit application process to irrevocably elect not to be considered for reinstatement in the event that such member becomes eligible for reinstatement.

Within the application for disability benefits, requires the employer to make a statement indicating the reason for the member's separation from employment and to submit a statement of additional basis for the member's disability under the death and disability program that the employer believes exists.

States that when a member's temporary occupational disability ceases to exist and the member is restored to active service, a transfer will be made from the statewide death and disability plan to the member's normal retirement plan in the amount of 16% of the monthly base salary that the member was paid at the time of disability retirement, multiplied by the number of months the member received the temporary occupational disability benefit.

States that if a member, while receiving a temporary occupational disability benefit, satisfies the age and service requirements for a normal retirement, a transfer will be made from the statewide death and disability plan to the member's defined benefit plan in the amount of 16% of the monthly base salary that the member was paid at the time of disability retirement, multiplied by the number of months the member received the temporary occupational disability benefit. States that such member shall then be granted a normal retirement and the disability benefit shall terminate.

If a member dies while receiving a temporary occupational disability benefit, allows the member's family to receive the same survivor benefits that the family would receive had the member died while in active service.

Increases the survivor benefit for survivors of members of the statewide death and disability pension plan for police officers and firefighters if the member dies while in active service in the line-of-duty and is not eligible for a normal retirement pension as follows:

Increases the survivor benefit for a spouse either with or without dependent children;

Increases the survivor benefit for one or more dependent children who were living in the member's home at the time of the member's death and when there is no surviving spouse; or

Increases the survivor benefit for one or more dependent children who were not living in the member's home at the time of the member's death and when there is no surviving spouse and specifies the limits for the total benefit.

Increases the benefit for survivors of members of the statewide death and disability pension plan for police officers and firefighters if the member dies while in active service in the line-of-duty and is eligible for a normal retirement pension as follows:

For a spouse either with or without children, in addition to the monthly retirement benefit otherwise payable, the monthly benefit paid shall be the difference between 70% of the monthly base salary paid to such member immediately preceding death and the amount of the retirement benefit otherwise payable;

For one or more dependent children who were living in the member's home at the time of the member's death, the monthly benefit paid shall be the difference between 70% of the monthly base salary paid to such member immediately preceding death and the amount of the retirement benefit otherwise payable; or

For one or more dependent children who were not living in the member's home at the time of the member's death, the monthly benefit paid shall be the sum of 40% of the monthly base salary paid to such member immediately preceding death for the first child plus 15% for each additional child, the total of which shall not be greater than 70% of the monthly base salary, less the amount payable under the normal retirement pension.

Modifies the division of the survivor benefit in the event that a surviving spouse and one or more dependent children residing in a separate household from the surviving spouse must share the benefit.

States that survivors of members of the statewide death and disability pension plan for police officers and firefighters who die while on-duty but whose death falls within an exception of the internal revenue code shall receive the same benefit as such survivor would receive if the member's death was off-duty.

Includes leave for military service within authorized leave as allowed by the board of directors of the fire and police pension association. Directs the board to adopt rules regarding authorized leave for absence for military service.

Defines terms. Makes conforming amendments.

Be it enacted by the General Assembly of the State of Colorado:

SECTION 1. 31-31-407 (1), (2), and (4), Colorado Revised Statutes, are amended to read:

31-31-407. Adjustment of benefits. TITLE: CONCERNING DEATH AND DISABILITY BENEFITS FOR MEMBERS OF THE STATEWIDE DEATH AND DISABILITY PLAN FOR POLICE OFFICERS AND FIREFIGHTERS.

Summary of Assessment

This bill revises statutes governing the Statewide Defined Benefit Plan and the Statewide Death and Disability Plan of the fire and police new hire pension plans under the Fire and Police Pension Association (FPPA). The FPPA is a body corporate and a political subdivision of the state, and is not a state agency subject to administrative direction by any state agency or department.

In summary, the bill:

- creates a permanent occupational disability benefit and a temporary occupational disability benefit for members of the Statewide Death and Disability Plan, and stipulates conditions by which members may qualify for those benefits;
- authorizes the FPPA board of directors to consider any relevant evidence in the determination of an occupational, total, or on-duty disability;
- requires that all benefits under the Statewide Death and Disability Plan be redetermined effective October 1 of each year, and specifies the manner by which benefits may be adjusted;
- allows any member awarded a total or permanent occupational disability benefit to receive the normal disability pension or elect for a reduced pension to allow for survivor benefits;
- specifies the amount of a transfer to be made from the Statewide Death and Disability Plan to the member's normal retirement plan when a member's temporary disability ceases to exist and the member is restored to active service;
- specifies the amount of a transfer to be made from the Statewide Death and Disability Plan to the member's defined benefit plan in order to grant a normal retirement and terminate a disability benefit when a member, while receiving a temporary disability benefit satisfies the age and service requirements for normal retirement;
- allows a member's family to receive the same survivor benefits the family would have received had the member died while in active service, if the member dies while receiving a temporary occupational disability benefit;
- under certain conditions, increases the survivor benefits for survivors of members of the Statewide Death and Disability Pension Plan if the member dies

- while in active service in the line-of-duty and is, or is not, eligible for a normal retirement pension;
- modifies the division of the survivor benefit in the event a surviving spouse and one or more dependent children residing in a separate household must share the benefit;
- states that survivors of members of the Statewide Death and Disability Pension Plan who die while on-duty but whose deaths fall within an exception of the Internal Revenue Code shall receive the same benefit as if the member's death was off-duty; and
- includes leave for military service within authorized leave as allowed by the FPPA board of directors, and requires the board to adopt rules regarding such authorized leave.

The bill will become effective October 1, 2002.

This bill will not affect state or local government revenue or expenditures, or FPPA administrative costs. The bill will not affect the actuarial soundness of the FPPA Statewide Defined Benefit Plan and the Statewide Death and Disability Plan since these plans are fully funded.

The bill will, however, affect the amounts of certain benefits payable to qualified members of the plans. The FPPA indicates the cost of any increased benefits will be covered by off-setting cost reductions created by the implementation of the temporary occupational disability benefit provisions. These provisions are considered to be more restrictive than those employed under current law.
