

INTRODUCTORY NOTE

The Board of Governors takes distinct pleasure in announcing that future volumes of the Transportation Law Journal will be published in cooperation with the highly regarded College of Law of the University of Denver.

Editorial responsibility of the Journal will be assumed by the recipient of the Motor Carrier Lawyers Association's Chair of Transportation Law which was recently established as part of the Motor Carrier Lawyers Association's Continuing Legal Education program.

The Association looks forward to this new endeavor and is sure that its joint efforts with the Law School will result in success similar to that experienced by the annual Transportation Law Institute which is also sponsored by the parties.

It is also appropriate at this time for the Board to extend special gratitude and recognition to Professor Daniel J. Baum who has served as Editor of the Journal since its inception. Without Professor Baum's guidance, cooperation, and efforts, the Journal would not be in a position to pursue the growth course announced.

Although Professor Baum's formal responsibility as Editor terminates with the present volume of the Journal, the Board looks forward to his continued contributions in an advisory and editorial capacity.

The Journal's readers are also invited to contribute suggestions and editorial material. Such assistance will help the Association and Law School achieve their goal of making the Journal the most significant periodical in the area of transportation law.
