Several ballots were received with the names of other lawyers written in but such names were necessarily disregarded.

In this primary every lawyer was privileged to vote for one Republican and one Democratic candidate for each judicial office or less if he desired.

No further primary will be held prior to the party assemblies.

Half-Truths

"Half-truths are simple, but the whole truth is the most complicated thing on earth. * * * Talk about the 'survival of the fittest', but they never complete the sentence. It is not the abstractly fittest who survive. The sentence really is, 'the survival of the fittest to survive'; that is the fittest for a given environment. If you cast a minnow and the magnificent bull of Bashan into the Atlantic Ocean, there

is no question which is the nobler organism, the abstractly fittest, but the great bull of Bashan will perish and the minnow will survive in that environment."—*Thos. B. Reed.*

"No man is the wiser for his learning. It may administer matter to work in, or objects to work upon; but wit and wisdom are born with a man."—*John Selden.*
